DETAILED ACTION

Response to Amendment

Applicant's amendment filed on October 31, 2005 has been entered and made of record.

Allowable Subject Matter

Claims 2, 3, 6, 7, 9-11 and 13-21 are allowed.

The following is an examiner's statement of reasons for allowance.

The instant invention recites a document image capture and processing system comprising:

a computer having a trend array for storing maximum values of scanner output as a document is scanned;

trend analyzer logic in the computer for evaluating the maximum values in the trend array to determine a rate of scanner performance deterioration;

adjust logic in the computer for adjusting the maximum values of scanner picture element output in an initial row of the trend array after an interval to generate an adjusted maximum value for each scanner picture element;

the adjust logic in the computer, adjusting a maximum picture element value by a larger amount when the maximum value of scanner picture element output indicates a return to acceptable performance by the scanning portion of the image system and adjusting a maximum picture element value by a smaller amount when the maximum value of scanner picture element output indicates a deterioration of acceptable performance by the scanning portion of the image system.

Art Unit: 2627

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
